

CANTORUM TRIO PLUS

A three-manual modular organ, powered by Viscount's patented Physis Plus technology. It is equipped with 46 organ stops and 4 orchestral voices, combined with contemporary aesthetics make it the perfect solution, without sacrificing quality.

It is powered by Viscount patented Physis Plus technology, the natural and powerful evolution of well-known Physis (Physical modeling) technology, capable of faithfully reproducing the authentic sound and performance of a traditional pipe organ.

High-Quality Tracker Action Keyboards equipped with 3 x 61 notes "Tracker Action" keyboards. The feel of the keys conveys the touch of a true Tracker Action.

Physis Plus Technology for a real organ experience

Cantorum Trio Plus is equipped with Physis Plus technology, the powerful natural evolution of the well-known Physis that, thanks to the system Moris© (Viscount Deep Learning), it has made possible to achieve a sound credibility never achieved before. It is able to capture and elaborate new parameters typical of organ sound, making the physical models incredibly realistic.

Extensive Connections for Expandability

An extensive selection of external connections is located on the rear of the instrument. In addition to the standard connections, MIDI In-Out, headphones and mini-jack stereo inputs, dual audio output, there is also USB pen drive to save and upload sound settings, and for MIDI song recording and playback. The external audio can be adjusted with independent 5-band audio equalizers for each channel. Master volume and reverb controls are conveniently located on the left of the front panel. When using MIDI and Orchestral Voices, the keys instantly become touch sensitive.
